

§ 881.3

30 CFR Ch. VII (7–1–14 Edition)

§ 881.3 Qualification of projects.

(a) Projects for the reclamation and rehabilitation of strip-mined areas will be considered only if all of the lands embraced within the project are lands owned by the Federal Government, a State, or local bodies of government.

(b) Projects must be submitted by a State to the Commission and receive the approval of that body.

§ 881.4 Application of contribution.

(a) A State in its application for contribution to a project shall fully describe the conditions existing in the project area and give a full justification for the project in terms of the relationship of the potential benefits that will result from the project to the estimated costs of the project and in terms of the improvement, on a continuing basis, to the economic potential of the State or area which the project will bring about. If the project entails the reclamation and rehabilitation of strip and surface mined areas, the application shall state the uses to which the lands will be put.

(b) Before submitting a project to the Secretary for approval, the Director shall obtain from the State the following:

(1) Copies of inspection procedures, designs, plans and methods of engineering proposed for the construction, installation, services or work to be performed to accomplish the objectives of the project;

(2) Accurate information, data, and maps of the location of the project, the area involved, and, if the project consists of work designed to prevent or alleviate subsidence, information, data, and maps (if available) of the seams of coal to be filled or flushed;

(3) The proposed advertisement for bids for each project contract, which advertisement shall include suitable references concerning the fact that the project is one to the cost of which the Government will contribute under the Appalachian Regional Development Act of 1965, and that the State's acceptance of liability arising out of any bid shall be subject to contribution by the Government under the provisions of a cooperative agreement with the Government for that purpose;

(4) The proposed project contract, together with specifications and drawings pertaining to the equipment, materials, labor and work to be performed by the project contractor;

(5) Releases, proper consent or the necessary rights or interests in lands and coal formations, for gaining access to and carrying out work in or on the project, and other documents required by OSM for approval of the project, and in form and substance satisfactory to OSM;

(6) Certifications or documents, as may be required by OSM, indicating public ownership or control of subsurface coal or mineral rights accompanied by appropriate resolutions from the State or local authorities to indemnify and hold the Government harmless should any property owner within the project area make any claim for damage resulting from the work within the project area if releases, consents or rights or interests were not obtained from such property owner by the State or local authorities, and not to mine or permit mining of coals or other minerals in property owned or controlled by the State or local authorities.

(7) If the project is for the rehabilitation or reclamation of a strip mine area, evidence satisfactory to the Secretary that the State or local authority owns the lands upon which the project is proposed to be carried out, and that effective installation, operation, and maintenance safeguards will be enforced;

(8) The estimated total cost of the proposed project and, if the work is proposed to be performed in phases, the estimated cost of each phase.

(c) If the Secretary approves the project, the Director will submit to the State a cooperative agreement establishing the estimated cost of the project in the amount approved by the Secretary.

§ 881.5 Cooperative agreements.

(a) Each project shall be covered by a cooperative agreement between the Government, as represented by the Director, and the State. The agreement shall establish the total estimated cost of the project and, if the project is to

be accomplished in phases, the estimated cost of each phase. The maximum obligations of the parties to share the cost of the project shall be stated in terms of the total estimated cost of the project and, if project is to be accomplished in phases, in terms of the estimated cost of each phase. Other responsibilities of the parties shall also be described in the agreement, as may be agreed upon and as may be in conformity with these regulations, to meet the needs and requirements of a particular project.

(b) The Government's obligation to contribute funds may be less than but shall not exceed 75 percent of the total estimated cost of the project. The obligation of the State (and, if appropriate, the local authorities) to contribute funds may be more but shall not be less than 25 percent of the total estimated cost of the project.

(c) None of the funds contributed by the Government or by the State shall be used for operating or maintaining the project or for the purchase of culm, rock, spoil, or other filling or flushing material.

(d) The Director may, without approval by the Secretary execute amendments to a cooperative agreement which will cover (1) acceptance of a bid on a proposed project contract that does not exceed by more than 20 percent the estimated cost, initially established in the cooperative agreement, of the work covered by the proposed project contract, and (2) the estimated costs of additional work under a project contract, if the estimated cost, initially established in the cooperative agreement, of the work covered by the project contract will not be increased by more than 20 percent.

§ 881.6 Project contract.

(a) Upon approval of the project by the Secretary, execution of the cooperative agreement, and receipt of an acceptable bid, the State shall carry out and execute the project through a project contract, or, if the work is to be done in phases, a series of project contracts, entered into by the State and its contractors or suppliers for the construction, installation, services or work to be performed.

(b) Project contracts shall be entered into only with the lowest responsible bidder pursuant to suitable procedures for advertising and competitive bidding. The Government's obligation to contribute to the cost of a project, or a phase of a project, is limited to the estimated costs established in the cooperative agreement. If the bids on work to be done under a proposed project contract exceed the estimated cost of the work established in the cooperative agreement, the State should not enter into the project contract unless the cooperative agreement has been amended to provide for an increase in contributions sufficient to meet the increase in costs, or unless the State wishes to assume the excess cost of the project.

(c) OSM shall be advised of the time and place of the opening of bids on a proposed project contract and may have a representative present.

(d) If the State amends a project contract, or issues a change order thereunder, and the amendment or change order results in an expenditure under the project contract in excess of the estimated cost of the work established in the cooperative agreement, the Government shall be under no obligation to contribute to such excess costs unless the cooperative agreement has been amended to provide for an increase in contributions by the parties sufficient to meet such excess costs.

(e) The State shall furnish the Director, in duplicate, a certified true executed copy of each project contract with related plans, specifications, and drawings annexed thereto, promptly upon its execution.

(f) The State shall include in each project contract provisions to the effect that—

(1) Regardless of any agreement between the State and the Government respecting contributions by the Government to the cost of the contract under the provisions of section 205(a)(1) of the Appalachian Regional Development Act of 1965 (Pub. L. 89-4, 79 Stat. 5), the Government shall not be considered to be a party to the contract or in any manner liable thereunder. Neither the Government nor any of its officers, agents, or employees shall be responsible for any loss, expense, damages to property, or injuries to persons, which
